I (write your name)

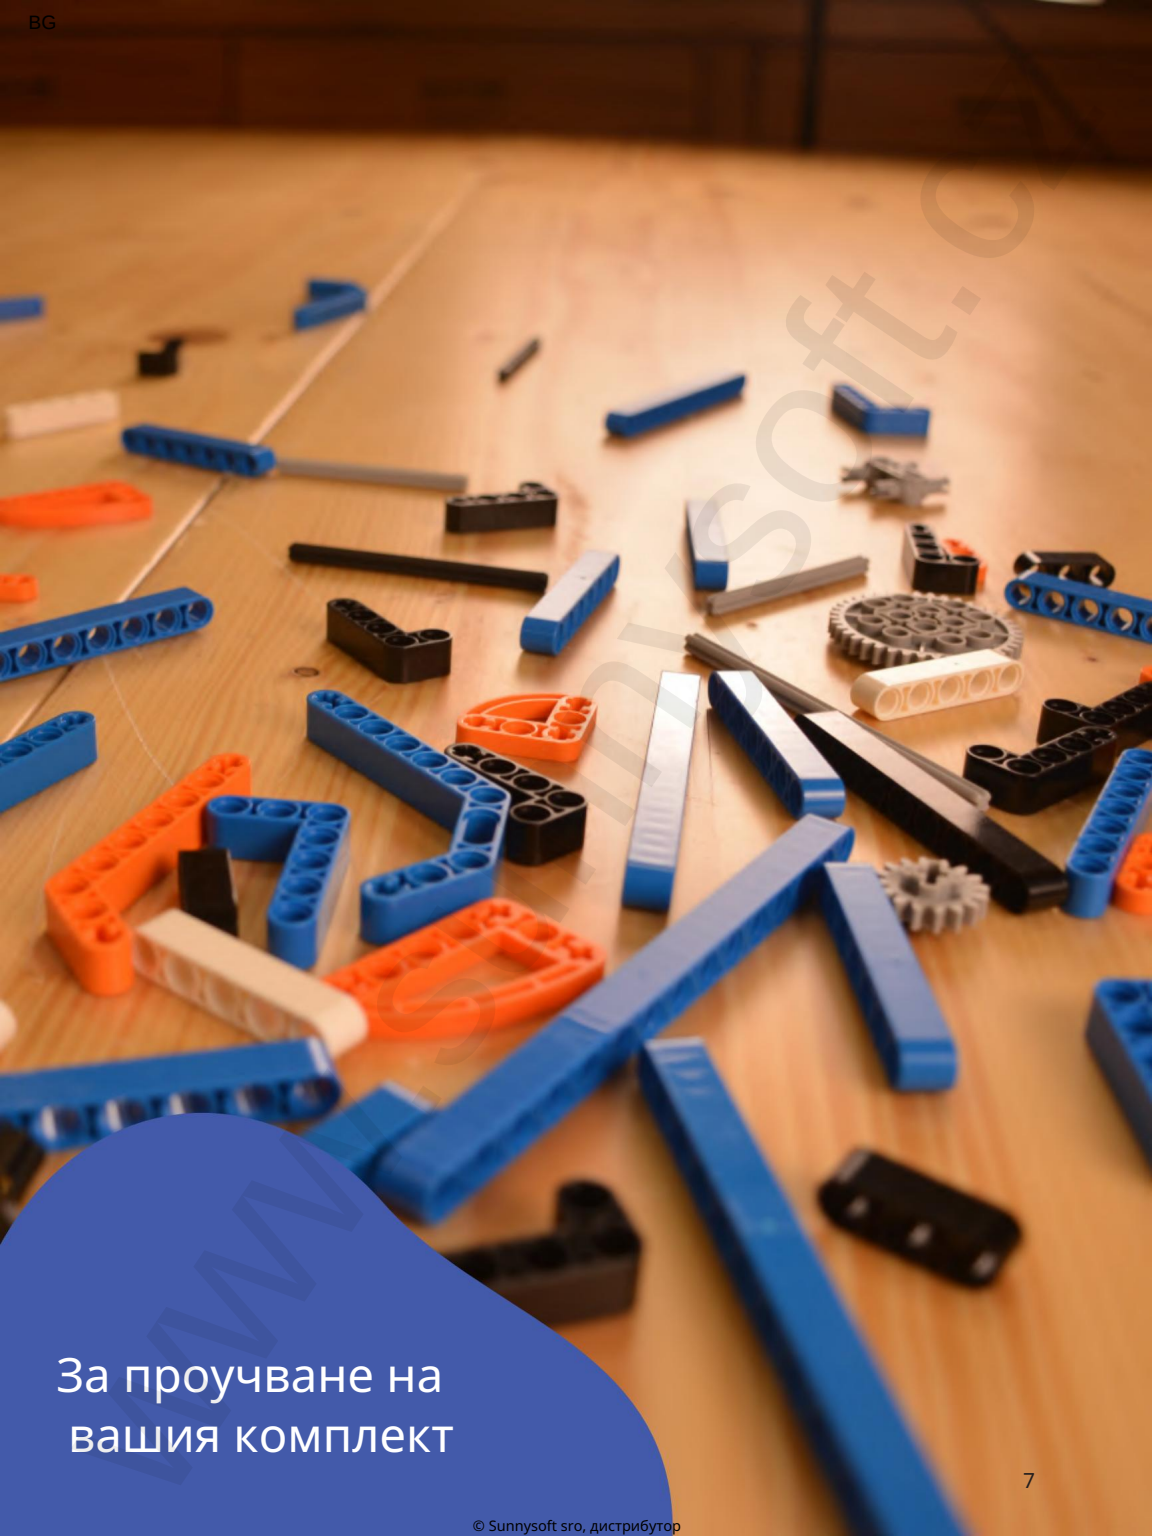

*solemnly swear that, since I am
now on the path of innovation,*

*I will not give up until my
innovation, my project is ready.*

*I will hone my skills and tools
and use them well. Innovation
and I will be inseparable.*

*I will always share my
innovations with other
innovators and learn with them.*

Как да свържете мотор към MEXcore

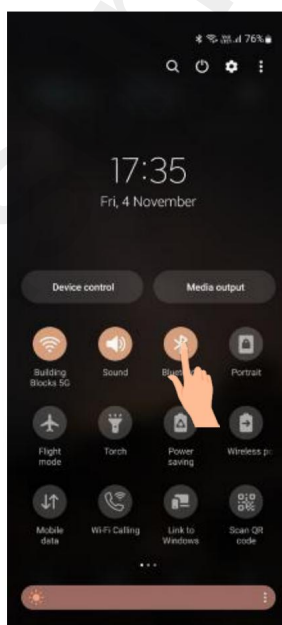

Контрол на приложението

- 1 Поставете батериите в MEXcore и го включете. Ще забележите , че MEXcoreLED мига зелено.

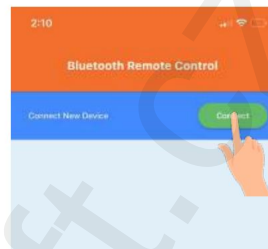

Забележка - Използвайте само AA алкални батерии. (Всеки друг тип може да повреди MEX ядрото.)

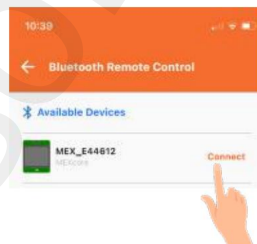

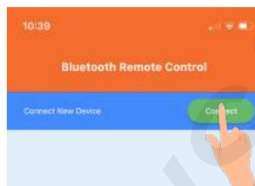

- 2 Включете Bluetooth на телефона си.

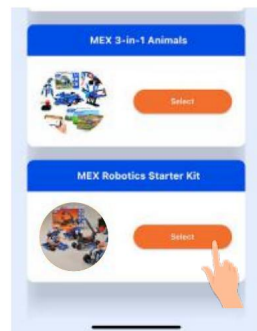

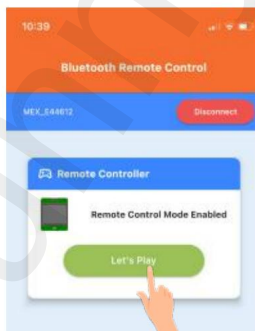

- 3 Отворете приложението Avishkaar и щракнете върху бутона „Пускане“ в секцията „Начало“.

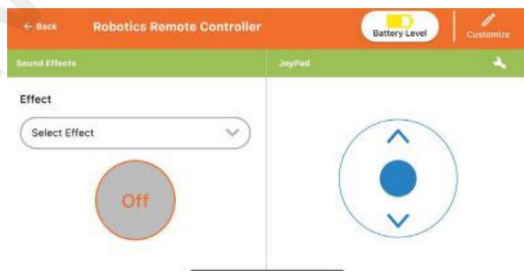

- 4 Щракнете върху „Свързване“.
Вашето приложение трябва да може да намери вашия MEXcore, ако е включено. След като приложението разпознае вашия MEXcore, щракнете върху "Свързване".

- 5 Кликнете върху „Да играем“ и изберете „MEX Robotics Starter kit“ от менюто за избор на комплект.

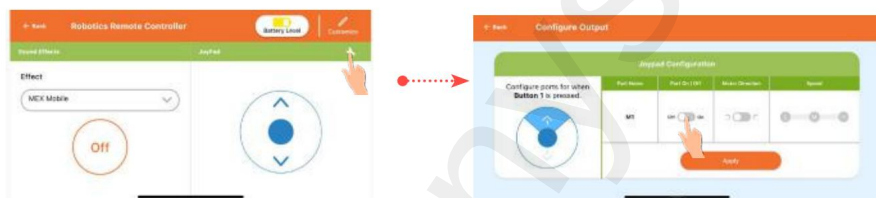

- 6 Екранът за дистанционно управление ще се отвори, позволявайки ви да контролирате LED двигателя и звука на вашия Tusker. Забавлявайте се!

Съвет за сглобяване

Дългите сини карфици имат две различни страни!
Едната страна може да влезе в два лъча едновременно,
докато едната страна може да влезе само в един.
Обърнете внимание коя страна трябва да бъде поставена във
всяка стъпка .
